

A blended Australian - Indonesian Software
Development Team

Mulai proyek Anda bersama SoftwareSeni!

Menjadi kompetitif berarti memanfaatkan tim yang terdiri dari orang-orang terpilih.

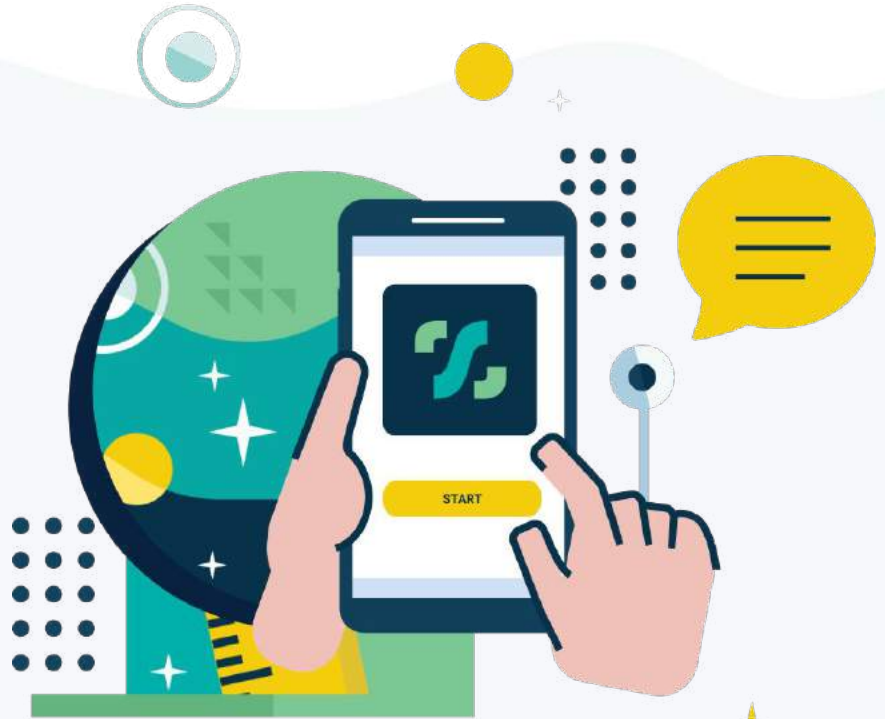

Kami telah membangun model pengembangan software yang menyediakan tim terbaik dengan biaya yang bersaing untuk mencapai hasil yang sangat memuaskan.

Layanan

Softwareseni menawarkan berbagai layanan terbaik yang diformulasikan untuk menjawab kebutuhan Anda akan teknologi dan digitalisasi produk.

Specification Document & Wireframe

Pembuatan dokumen teknis yang merangkum seluruh kebutuhan teknologi sebelum dilakukan pekerjaan teknis. Dokumen ini berguna sebagai panduan penuh untuk seluruh tim baik dari UI/UX sampai QA.

Mobile App Development

Pembuatan mobile app dengan hasil akhir aplikasi yang dapat diunduh di Google Play Market atau di iOS App Store. Pengembangan aplikasi mobile menggunakan teknologi React native yang efektif dan efisien.

Custom Software Development

Pembuatan sistem internal perusahaan yang dapat disesuaikan dengan kebutuhan setiap klien dengan alur kerja yang mengikuti model bisnis yang berjalan. Teknologi beragam mulai dari PHP sampai Javascript.

Website Development

Pembuatan website untuk end-user yang disesuaikan dengan target market yang dituju. Website ini mencakup pembuatan Company Profile website, e-commerce yang terhubung dengan pembayaran real-time, hingga multi user Marketplace

MVP Development

Aplikasi skala besar idealnya dibangun dengan beberapa tahap pengembangan mengikuti kebutuhan dan trend market terbaru. SoftwareSeni bekerja mulai dari tahap konsultasi hingga pengembangan aplikasi

UI/UX Design

Layout yang tepat sesuai dengan merek bisnis dan target market menjadi hal penting yang harus dipikirkan sejak awal karena tahap ini yang akan menentukan hasil akhir dari sebuah produk. Sejatinya produk tidak hanya indah, tetapi juga mudah digunakan.

Model Kerjasama

Mulai dari perpanjangan tim secara bulanan, hingga pengerjaan per-jam yang disesuaikan dengan kebutuhan anda.

Dedicated Team Engagement

Staf tetap sebagai perpanjangan tim anda secara bulanan

Project-Based

Kami estimasi kebutuhan project anda, approval, dan kami pastikan terselesaikan

On Demand

Menggunakan developer dari talent-pool SoftwareSeni untuk pengerjaan per-jam

Dedicated Team Engagement

Staff yang didedikasikan khusus untuk mengerjakan project Anda.

- ✓ Staff eksklusif hanya untuk Anda
- ✓ Mengurangi biaya HR
- ✓ Tak perlu repot dengan proses rekrutmen
- ✓ Cocok untuk develop platform digital yang dinamis

On-Demand

Tim untuk setiap permasalahan dan kebutuhan platform digital Anda

- ✓ Lebih fleksibel
- ✓ Pengerjaan berdasarkan requirement ticket
- ✓ Biaya yang lebih murah
- ✓ Cocok untuk pengembangan fitur dan maintenance

Project-Based

Tim untuk development platform digital bisnis perusahaan Anda

- ✓ Pengerjaan berdasarkan target bisnis Anda
- ✓ Harga dan timeline pengerjaan yang transparan
- ✓ Garansi kualitas 1 bulan
- ✓ Cocok untuk mengembangkan produk digital baru

Tim Kami

SoftwareSeni selalu berusaha menemukan orang-orang muda berbakat untuk memperkuat proyek kami.

Pengalaman Luar Biasa

Kami telah membuktikan bahwa David dan perusahaannya tidak hanya sangat membantu dan mendukung, tetapi juga sangat berguna dan relevan dengan standar yang kami miliki. Mereka telah menjadi hal yang paling berharga sebagai **mitra terpercaya**.

Nick Baker

CEO Red Balloon

Pengalaman Luar Biasa

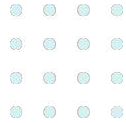

Tim di SoftwareSeni sangat luar biasa untuk diajak bekerja sama. Mereka tepat waktu, responsif, dan sangat baik dalam apa yang mereka lakukan. Mereka terus **melangkah lebih jauh** dalam memenuhi harapan kami dan selalu bersedia menawarkan saran strategis tentang cara terbaik untuk mengembangkan platform kami untuk mencerminkan pertumbuhan kami.

Lexy Meyerson

Varlah

Kami bangga dengan yang kami kerjakan, dan begitu juga Klien kami

SoftwareSeni tidak hanya menulis kode hebat, mereka juga **sangat profesional** dan sangat mudah diajak bekerjasama. Mereka telah terintegrasi dengan sangat baik dengan tim teknologi internal kami dan sekarang memainkan peran kunci dalam upaya pengembangan proyek kami.

Adam Mather

INKL

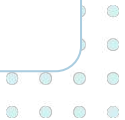

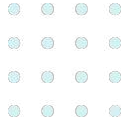

Kami telah bekerja dengan SoftwareSeni selama beberapa tahun terakhir. Mereka telah tumbuh bersama kami dan berperan penting dalam **kesuksesan bisnis kami.**

Ben Gaze

Boatdeck

Kami menyukai pengalaman kami bekerja dengan SoftwareSeni! Dimana di dunia ini banyak pengembang one-man-band kurang siap untuk menangani percakapan front-of-house dan manajemen klien profesional, SoftwareSeni sangat unggul. Kami merasa **sangat mudah dan menyenangkan** untuk bekerja dengan tim mereka tanpa banyak penjelasan.

Amy Nadaskay

Monogram

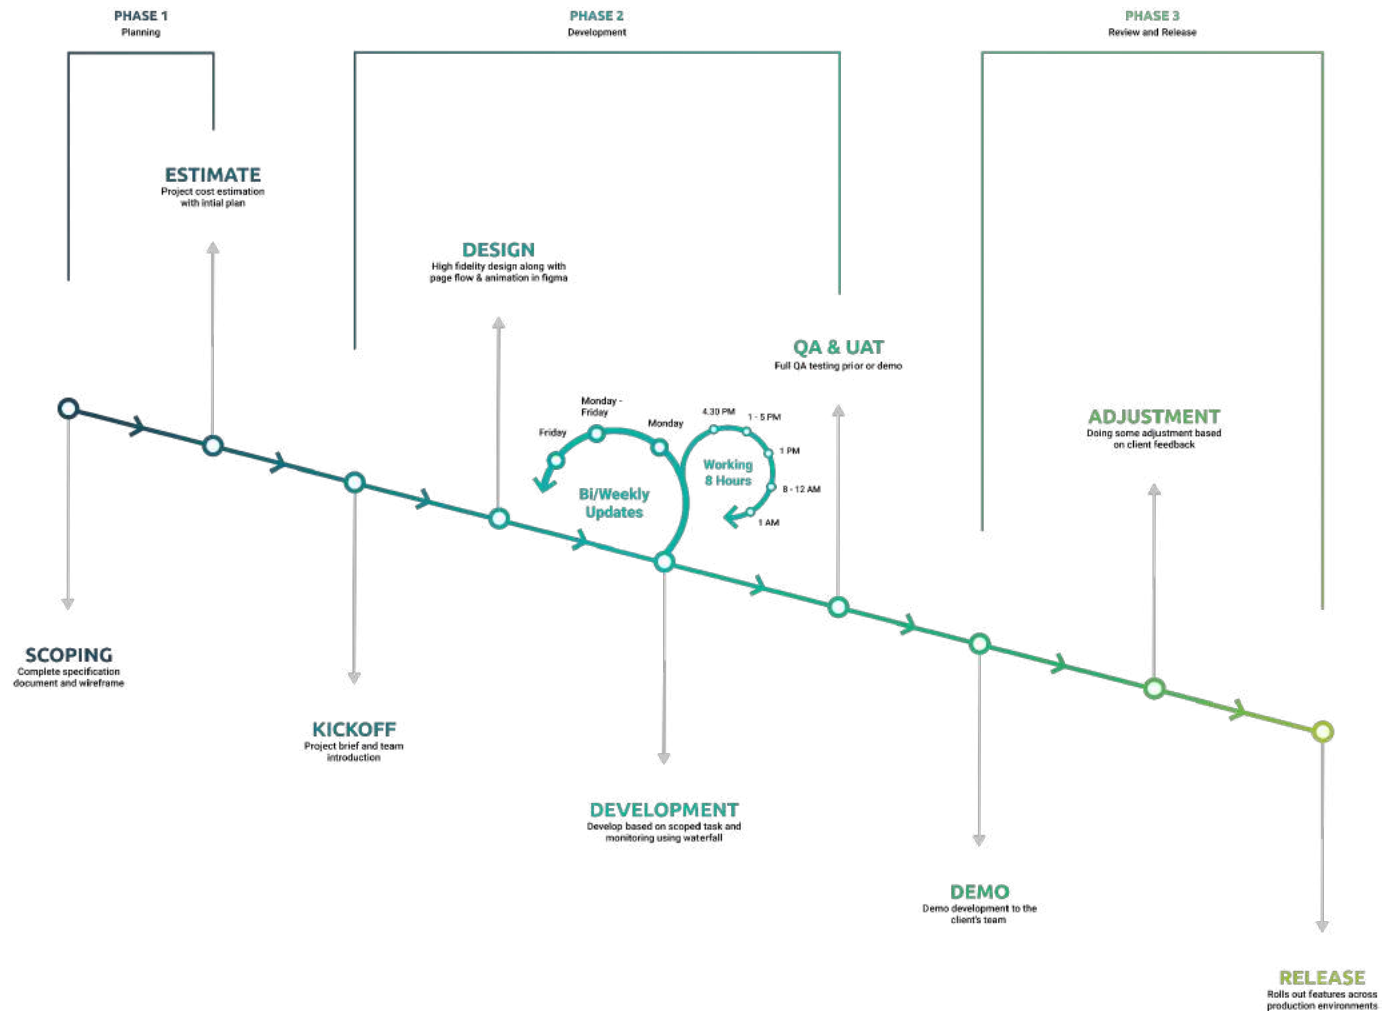

SoftwareSeni telah terbukti menjadi **mitra pengembangan web yang luar biasa**, memberikan saran, desain situs web, dan layanan pengembangan web berkelanjutan. Semua disampaikan dengan cara yang fleksibel dan responsif agar sesuai dengan kebutuhan kita yang terus berubah seiring dengan peningkatan perusahaan.

Apple product development in 1980 means a concentrated focus tightly around the needs of users, projects, and the things that will be needed to make the products work. It's a focus on the product, not the process. That's a stark, self-disciplined approach to the way we do things here.

Despite practical considerations of both factors, a more methodologically sound study of the results of these projects is required. Adopting two of the previously mentioned, involving students, as a vehicle for an in-depth investigation of the results of these projects would be a more methodologically sound study.

Un'altra delle cause del fallimento, in questo caso, è l'erronea interpretazione del mercato. Per fare un solo esempio, l'azienda che produceva i vestiti per il re del Marocco, si era basata su un'analisi del mercato che prevedeva un aumento della domanda di abiti di lusso. In realtà, invece, la crisi aveva colpito proprio questo settore, e l'azienda aveva perso un sacco di soldi.

Qualitative and quantitative are both useful types of user research, but neither of them is a silver bullet. The best way to get the most out of your research is to use both types of research in a balanced way.

Descriptive and quantitative research methods are used to study human behavior, but involve a lot of numbers and statistics. Qualitative research methods are used to study human behavior, but involve a lot of words and descriptions.

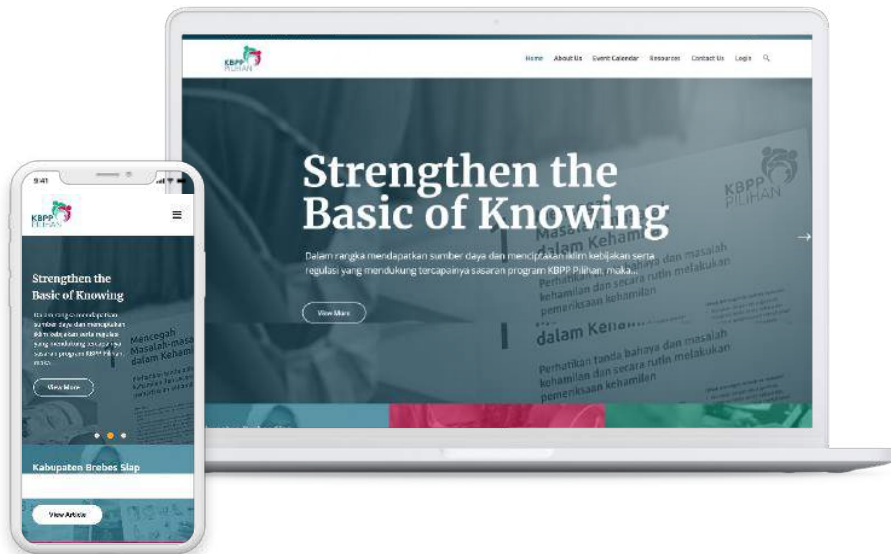

What is this *Effective Leadership: A Field Study*, an ethnographic study and a constructivist inquiry in a case-study design project? Not exactly. The main difference is that constructivist methods and techniques are essential:

The screenshot displays the 'Reports' section of the Gpepy application. On the left, a sidebar contains navigation links for 'Planner', 'Reports', 'Team', 'Project', and 'Start the Day'. The main content area is titled 'Reports' and shows a date range of '17 Dec 2021 - 23 Dec 2021'. Below this is a table with the following data:

Project Name	Client	Duration	Percentage
1 Frontend - Specifics & Workflow	SoftwareSens Indonesia	2:00:00	22.22%
1 Personal Activity (not related to work)	SoftwareSens	1:30:00	16.67%
3 ISD - Business Development	SoftwareSens Indonesia	3:30:00	38.89%
1 ISD - Operation	SoftwareSens Indonesia	30:00	5.56%
1 ISD - Quick Note	SoftwareSens Indonesia	1:30:00	16.67%

On the right side, there is a 'Clocking Hours' section showing '9:00:00' and a donut chart representing the data distribution. The chart is divided into four segments with the following percentages: 33.3%, 16.7%, 16.7%, and 33.3%.

At the bottom, there is a 'Start the Day' section with a 'What are you working on?' input field and a 'Start the Day' button. Below this is a timeline view showing the day's schedule from 08:00 to 20:00.

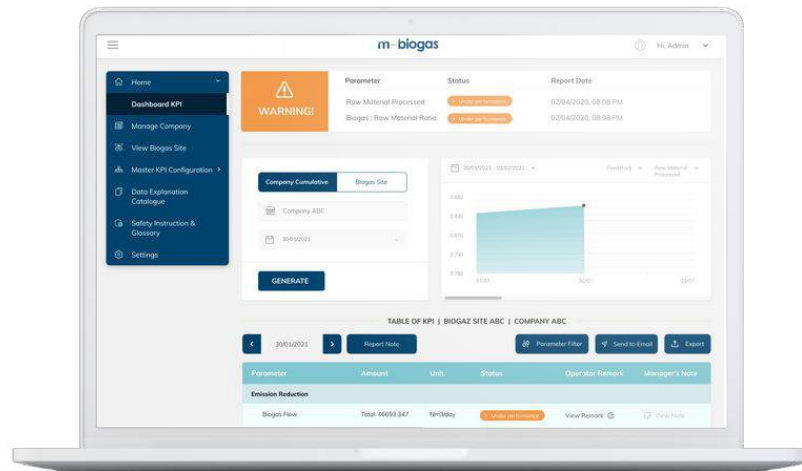

The screenshot shows the Pepsy Planner interface. On the left is a sidebar with navigation icons for Planner, Reports, Team, Projects, and Start the day. The main area has a header with the question 'What are you working on?' and a timer set to 00:00:00. Below this is a timeline from 08:00 to 21:00. Tasks are represented by horizontal bars with labels and durations:

- 08:00 - 09:15: Start onboarding meeting (00:15:00)
- 09:15 - 10:00: Work on design team - HR (00:45:00)
- 10:00 - 11:30: Update company profile (01:30:00)
